Applicants' election of Group I, drawn to claims 1-10 was acknowledged. Claims 11-14 were restricted out because they were drawn to multiple utilities, but applicants are maintaining those claims in this application in the belief that they eventually should be entitled to claim pharmaceutical compositions and a method of treatment along with the novel compounds. Claims 15-20 are withdrawn.

The following amendments and remarks follow the proposed revised format under 37 C.F.R. 121.

I hereby certify that this correspondence is being deposited with the United States Postal Service as first class mail in an envelope addressed to Assistant Commissioner for Patents, Washington, D.C., 20231, on March 4, 2003
